

# CHANGE

Stage 5

Powerful Tools  
To Use

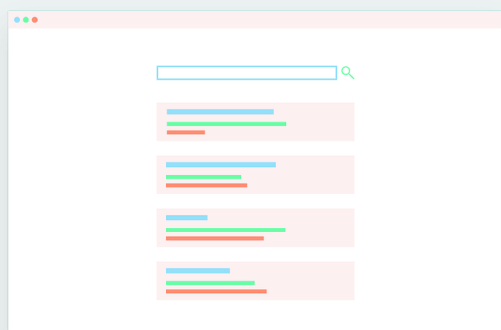

## Support

One of the most powerful tools at your disposal is support. Change can support all your business endeavours within Ecommerce and Affiliate Marketing. You can use the Chatbox in your member's lounge or Instagram to Direct Message Change's team. With decades of combined experience, Change's team prides itself on providing excellent support for its members. You can be sure that they'll have the answer or solution to any problems or hurdles you encounter during your business development. Support is dependent on your membership level, with Inner Circle members entitled to priority support.

## Search Engines

You should always look to Google and other search engines if you need further information. Learning how to research thoroughly using search engines is fundamental to success online. If you don't have an answer to a problem, then use Google to search for a solution thoroughly before utilising any support services. It can save time troubleshooting any issues, allowing you to move on with your business. Search engines are great for market research, especially when seeking reviews or articles concerning products and services already on the market.

## Webinars

Change's webinars are included in its membership packages. They cover a wide range of topics in the online business world and, at times, have a macro focus on the fundamentals which help determine success within these industries. They also help keep you updated with the latest developments, advice and tools to help you maintain a competitive edge. Webinars also provide opportunities for asking questions and instant feedback from the Change team. They also offer a great source of motivation. Webinars are available across membership levels. However, it is worth noting that Inner Circle members can access exclusive webinars.

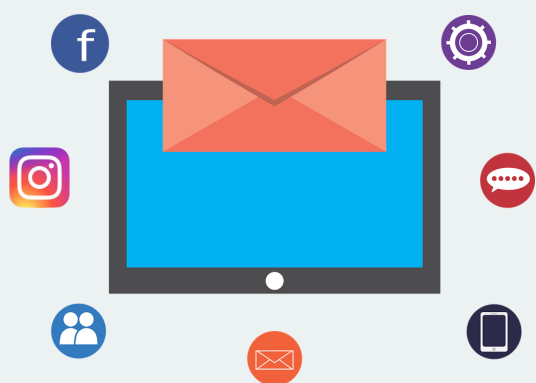

## Social Media

A credible social media account with a strong presence can be an excellent tool for your business, whether it's Ecommerce or Affiliate Marketing. It can help you network with successful individuals and open up new business opportunities. Having an extensive network will open new doors for business development and collaboration. It can also put you in touch with individuals who may hold the solution to a problem you are experiencing with your business or offer a service that you require. It also helps generate exposure for your business and boost sales.

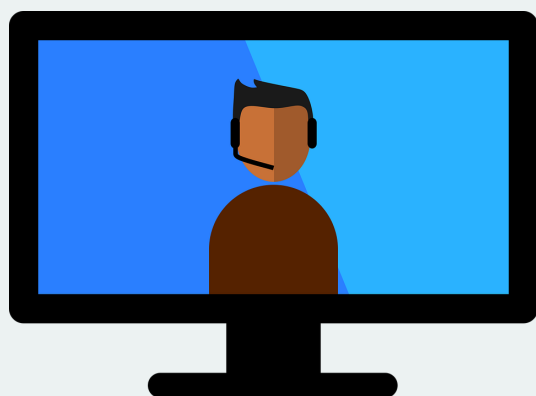

## Staying up to Date

One of the easiest ways to stay updated with the latest developments is to open Change emails every time they come through. They often include promotions and offers for extended training and notify you when new content and webinars are available. Save Change's email as a contact to ensure you are notified as soon as they come in. You should also follow Change's founders on Instagram and turn on post notifications. New tips and tricks are often shared on Instagram as well as social media with exclusive promotions and discounts.

## Sessions

If you need support with your business, you can book a private Zoom call with any Change team member to get the answers to any problems you have encountered. They can help with business plans, action plans, technical support etc. Our experts provide extra insight and support along your journey through the Change system. The team prides itself on delivering personal support through the Sessions tools. You can book a call via the booking system found in the member's lounge, which is one of the highest-rated tools in the Change system.

## Pro Section

Inner Circle and VIP Members get access to Pro Sections of the Change system, which will take your training to a new level. Extended training videos, including screen-recorded tutorials, on business development and exclusive strategies available within the Pro Section, can help push your business to a new level. Further resources are also available in the Digital Curriculum and Drop Shipping lounge for those looking to use advanced strategies and resources for their business.

## Live Workshops

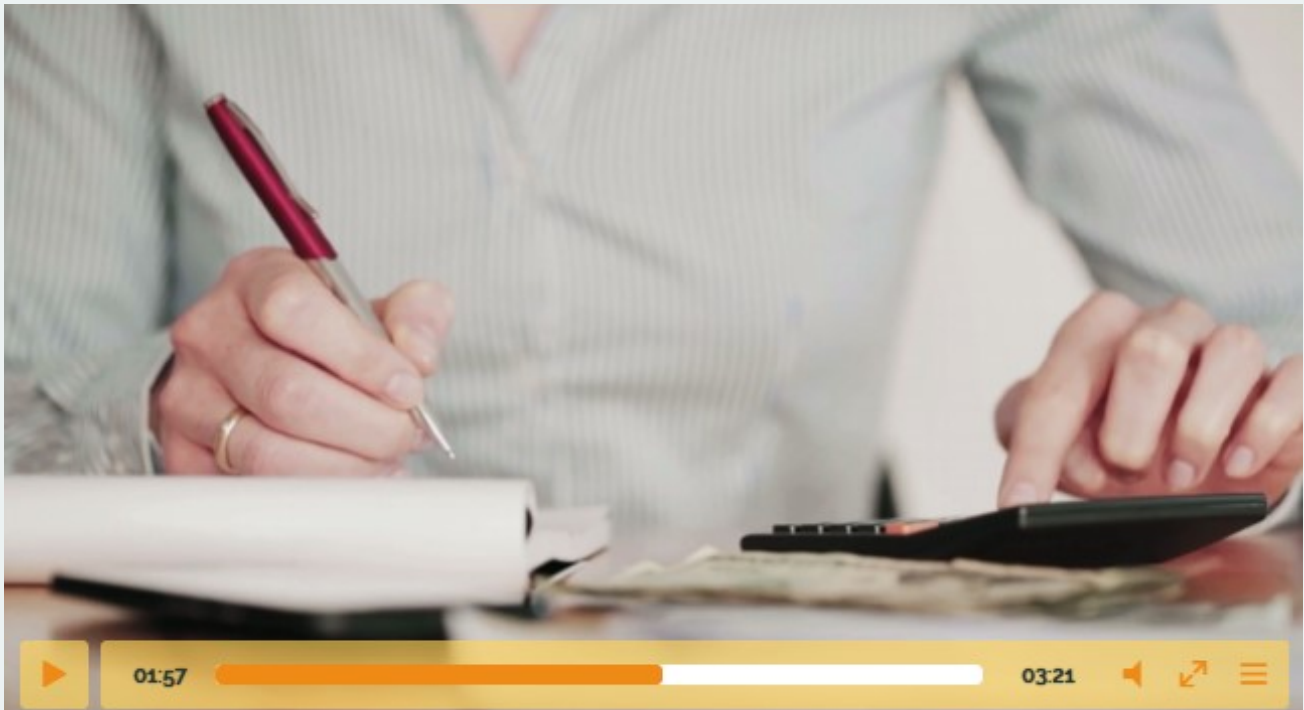

Change frequently offers Live Workshops and Master Classes for all of its members. Change's experts share their screens and strategies to provide further insight and information on how to push your business to the next level. More engaging than workshop videos, they offer great personal support for those starting and developing their business. New tips and tricks are being constantly discovered and shared in this format. It also allows connecting with other Change members and seeing what is driving their success.

## Powerful Tools To Use

Change's system is full of tools and resources to help drive your success online. You should use as many as possible to ensure you build a solid online business that will support your long-term financial freedom.

Change's E-Books are designed to accompany an extensive library of videos and articles that our founders, business consultants and members have curated to equip you with everything you need to succeed. Please click on the image below to watch the relevant video and learn more.

Feel free to get in touch

We thrive on feedback. If there is anything you think we should include in our videos, articles and other online resources, please let us know. If there is anything you find you need further information on, get in touch with us or feel free to network with other members.
